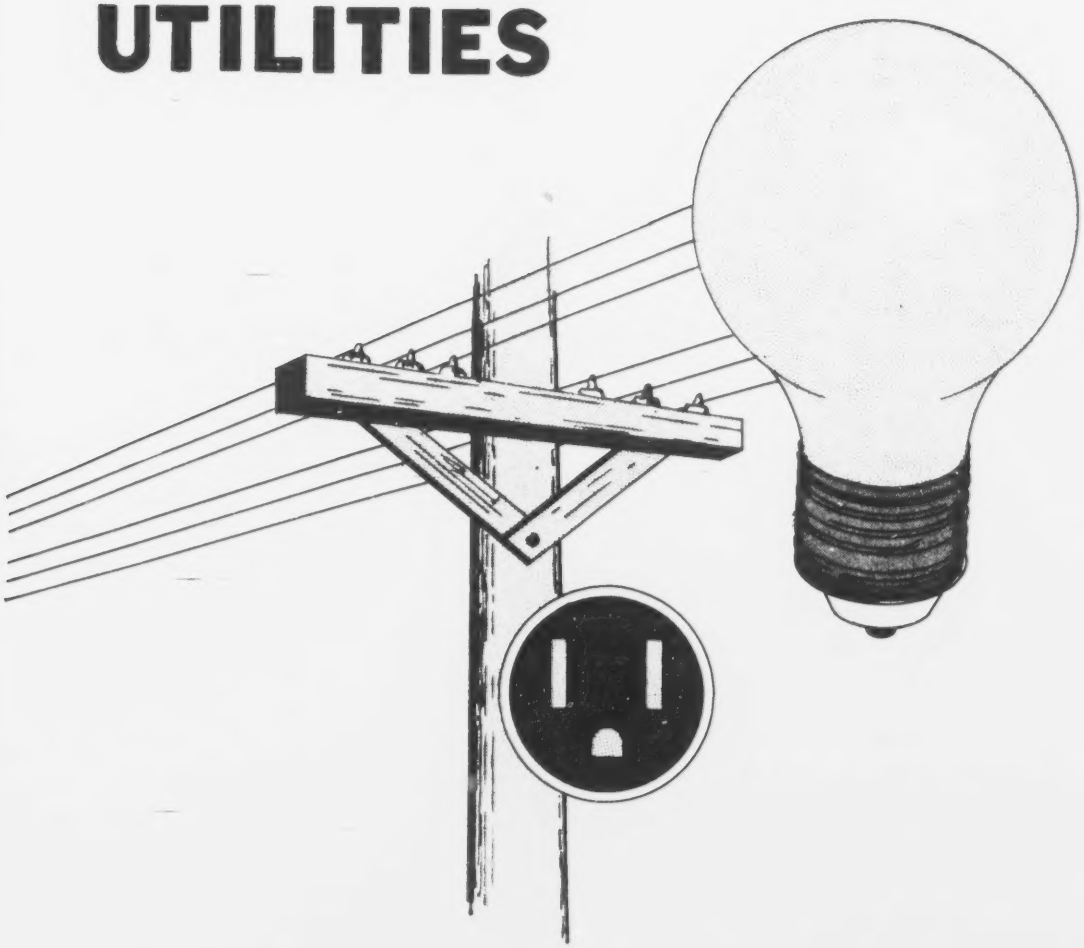
1982 STATISTICS FOR ELECTRIC UTILITIES



PENNSYLVANIA PUBLIC UTILITY SERIES

COMMONWEALTH OF PENNSYLVANIA
DICK THORNBURGH, Governor

DEPARTMENT OF COMMERCE
JAMES O. PICKARD, Secretary

HIGHLIGHTS

The 1982 statistics for electric utilities in Pennsylvania indicate that:

* Operating revenue increased 272% from $1.8 billion in 1972 to $6.6 billion in 1982, while average cost per kilowatt-hour to all users increased from $0.02 to $0.06 (195%). See Table 1.

* Twelve private electric utilities lead the electricity market in Pennsylvania with 4.5 million customers and $5.9 billion in sales. See Table 2.

* Net income after taxes increased from $754 million in 1981 to $892 million in 1982 for all types of utilities, and operating revenue increased from $6.1 billion to $6.6 billion. See Table 3.

* The number of residential customers (4.1 million) exceeded other types of customers and these customers paid more ($0.0723) per kilowatt-hour for their electricity than all other types. See Table 4.

* Capital expenditures exceeded $2.0 billion in 1982, bringing net investments to over $10 billion. See Table 5.

* Coal produced 68,820 million of kilowatt-hour production (78.5%) in 1982, atomic energy produced 12,943 million (14.8%) and gas and fuel oil produced 5,646 million (6.4%). See Table 6.

* Joint generating stations operated by Pennsylvania and out-of-state electric utilities provided 38 billion kilowatt-hours to the Pennsylvania-New-Jersey-Maryland Interconnection, the world's first integrated power pool, in addition to 38 billion to Pennsylvania residents. See Table 7.

* Philadelphia Electric Company and Pennsylvania Power and Light Company were the only two private electric companies with total revenues exceeding $1 billion. See Table 8.

* Chambersburg generated 243,000 kilowatt-hours of electricity, the only municipal electric company that generated any electricity. See Table 9.

* The cooperative electric utilities served over 137,000 rural customers in 1982. See Table 10.

1982 CENSUS OF PUBLIC UTILITIES IN PENNSYLVANIA

A. INTRODUCTION

This report presents data for electric utilities collected in the 1982 Census of Public Utilities in Pennsylvania, as provided in the Act of April 20, 1921, P.L. 193, as amended. Statistics relate to calendar years.

B. DEFINITIONS AND EXPLANATIONS

(1) Types of electric utilities - Electric utilities which sell electricity to Pennsylvania consumers are included. These utilities have three types of ownership:

(a) Private
(b) Municipal
(c) Co-operative - (a nonprofit cooperative corporation formed to engage in rural electrification for members of the cooperative.)

(2) Gross investment - Aggregate of balance sheet values as of December 31, 1982 of plant property in service, including land, equipment, distribution system and other fixed assets for which depreciation accounts are ordinarily maintained.

(3) Net investment - Gross investment less depreciation reserves.

(4) Capital expenditures - Value of construction put in place plus cost of equipment and machinery purchased.

(5) Number of employees - Average number of employees who received pay for any part of the pay period ending nearest the 15th of March, May, August, and November. Employees include persons on paid vacations, but exclude members of the armed forces and pensioners carried on the utility's active rolls. Corporate officers are included, while proprietors and partners of unincorporated utilities and contract employees are excluded.

(6) Wages and salaries - Gross earnings during the reported year, prior to such deductions as employees' Social Security contributions, withholding taxes, group insurance, and union dues. Included are commissions, dismissal pay, all bonuses, vacation and sick-leave pay, and the value of compensation in kind.

(7) Table 7 includes data for generating stations jointly owned by Pennsylvania Utilities and various out-of-state electric utilities. The portions of these generating stations owned by Pennsylvania electric utilities are included in the report for the entire company.

C. AVAILABILITY OF DATA FOR INDIVIDUAL UTILITIES

Individual electric utility reports are available for inspection in the Bureau of Statistics, Research and Planning in the Department of Commerce.

1982 CENSUS OF PUBLIC UTILITIES IN PENNSYLVANIA

A. INTRODUCTION

This report presents data for telephone utilities collected in the 1982 Census of Public Utilities in Pennsylvania, as provided in the Act of April 20, 1921, P.L. 193, as amended. Completeness of coverage and classification of public utilities are checked by cooperative interchange of information with federal and state agencies. The 1982 calendar year is the period covered by this report.

B. DEFINITIONS AND EXPLANATIONS

(1) This report presents data for telephone utilities operating in Pennsylvania with $1,000 or more gross operating revenue. The telephone utilities have been divided into three categories:

(a) American Telephone and Telegraph Company and its subsidiaries.
(b) Bell Telephone Company of Pennsylvania.
(c) Independent Telephone Companies.

(2) Net investment - Telephone plant in service, including land as of December 31, 1982 less any depreciation reserves.

(3) Capital expenditures - Actual or estimated value of construction put in place, plus cost of equipment and machinery purchased.

(4) Number of employees - Average number of employees who received pay for any part of the pay period ending nearest the 15th of March, May, August, and November. Employees include persons on paid vacations, but exclude members of the armed forces and pensioners carried on the utility's active rolls. Corporate officers are included, while proprietors and partners of unincorporated utilities and contract employees are excluded.

(5) Wages and salaries - Gross earnings during the reported year, prior to such deductions as employees' Social Security contributions, withholding taxes, group insurance, and union dues. Included are commissions, dismissal pay, all bonuses, vacation and sick-leave pay, and the value of compensation in kind.

C. COMPARABILITY OF DATA WITH OTHER STATISTICAL SERIES

Pennsylvania statistics on telephone companies are also collected by the Federal Communications Commission and published in a release called "Statistics of the Communications Industry in the United States." In general, the statistics in the F. C. C. release are directly comparable with those presented in this release.

D. AVAILABILITY OF DATA FOR INDIVIDUAL UTILITIES

Individual telephone utility reports are available for inspection in the Bureau of Statistics, Research, and Planning in the Department of Commerce.

1982 STATISTICS FOR SEWER AUTHORITIES

PENNSYLVANIA PUBLIC UTILITY SERIES

HIGHLIGHTS

* From 1977 to 1982, gross investment increased from $1,829,433,000 to $2,943,078,000 (60.9 percent); number of customers increased from 1,915,702 to 1,949,321 (1.8 percent); operating revenue increased from $183,919,000 to $305,133,000 (65.9 percent); and net income increased from $38,003,000 to $52,025,000 (36.9 percent). See Table 1.

* Allegheny County's 37 authorities reported 416,502 customers, a gross investment in excess of $404 million, 518 employees and operating revenues of $33.7 million. Capital expenditures were greatest in Cumberland County ($13,552,000). See Table 2.

* Customers totaled 1,949,321, including 416,502 in Allegheny County, 122,202 in Delaware County, and 113,735 in Bucks County. Residential customers totaled 1,811,153 (92.9 percent) and commercial customers totaled 102,547 (5.3 percent). See Table 3.

* Allegheny County far exceeded the other counties in operating revenue with $33,706,987, $24,676,564 of which was realized from residential accounts. Bucks County revenues totaled $21,787,379 and Montgomery County revenues totaled $22,749,865. See Table 4.

* There were 633 sewer authorities in Pennsylvania in 1982. The investment, capital expenditures, operating revenue and expenses, net income and number of customers for each authority are presented in Table 5.

1982 CENSUS OF PUBLIC UTILITIES IN PENNSYLVANIA

A. INTRODUCTION

This report presents data for municipal sewer authorities collected in the 1982 Census of Public Utilities in Pennsylvania. Annual statistical reports are required from each public utility operating in Pennsylvania as provided in the Act of April 20, 1921, P. L. 193, as amended.

B. DEFINITIONS AND EXPLANATIONS

(1) For purposes of this census, a municipal sewer authority has been defined as any corporation incorporated under the Pennsylvania Municipal Authority Act which owns sewerage gathering, transmission, treatment, or disposal facilities. The operating of the sewerage systems may be either by the authority or by some division, department or bureau of local government or by a management company to which the authority has leased its facilities. The authorities have been classified as either municipal authority owned and operated sewer utilities, or municipal authority owned and lessee operated sewer utilities.

(2) Gross investment - The recorded undepreciated, book value of plant property, equipment, collection systems, disposal plants (including land) and other fixed assets in service as of December 31, 1982.

(3) Non-operating revenue - Includes dividend interest received, rental receipts, and other non-operating revenue and state subsidies.

(4) Non-operating expenses - Includes interest on bonds and other debt and all other non-operating expenses.

(5) Number of employees - Average number of employees who received pay for any part of the pay period ending nearest the 15th of March, May, August, and November. Employees include persons on paid sick leave, holidays, and vacations, but exclude members of the armed forces and pensioners carried on the authority's active rolls. Corporate officers are included, while proprietors and partners of unincorporated authorities and contract employees are excluded.

(6) Wages and salaries - Gross earnings during the reported year, prior to such deductions as employee's Social Security contributions, withholding taxes, group insurance, and union dues. Included are commissions, dismissal pay, all bonuses, vacation and sick leave pay, and the value of compensation in kind.

(7) The outstanding bonds were retired in April 1981 for the Monaca Authority, Beaver County and ownership was transferred to the borough. The Trainer Sewer Authority, Delaware County redeemed all its outstanding bonds and ownership of the system was transferred to the borough.

C. OTHER SOURCES OF SEWER STATISTICS

The Public Health Service of the U.S. Department of Health and Human Services annually compiles statistics on contract awards for sewage treatment works in every state. These statistics include private and municipal owned sewer utilities as well as the municipal authorities covered in this release.

The Bureau of Local Government Services, Municipal Statistics Division of Community Affairs, Commonwealth of Pennsylvania compiles statistics on receipts and expenditures for sewers and sewage treatment for each municipal operated sewer system in the state.

D. AVAILABILITY OF DATA FOR INDIVIDUAL UTILITIES

Individual sewer authority reports are available for inspection in the Bureau of Statistics, Research and Planning, Department of Commerce.

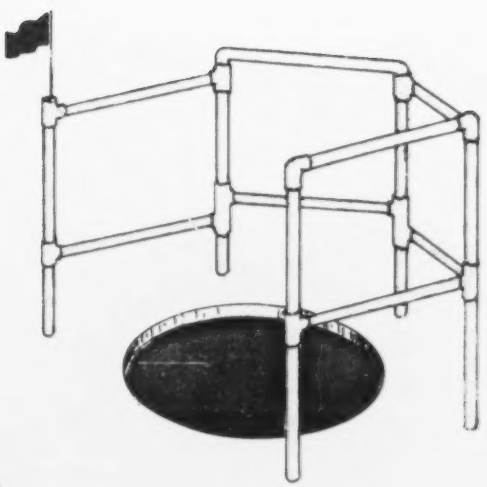
1982 STATISTICS FOR GAS UTILITIES

PENNSYLVANIA PUBLIC UTILITY SERIES



COMMONWEALTH OF PENNSYLVANIA
DICK THORNBURGH, Governor

DEPARTMENT OF COMMERCE
JAMES O. PICKARD, Secretary

HIGHLIGHTS

The 1982 statistics for gas utilities in Pennsylvania indicate that:

* Operating revenue increased 272% from $1,014 million in 1972 to $3,774 million in 1982, while average cost per million cubic feet to consumers increased from $1.05 to $4.69 (307%). See Table 1.

* For the same period (1972 - 1982), the number of million cubic feet sold decreased 19% from 787,522 million to 632,935 million. See Table 1.

* Operating revenue increased $752 million (25%) from 1981 to 1982; operating expenses increased $646 million (25%) for the same period, while net income, after taxes increased $80 million (54%). See Table 2.

* Residential consumers represented 89% of the total consumers. However, sales to commercial and industrial consumers exceeded sales to residential consumers. See Table 3.

* The total gas made available for Pennsylvania consumption was 541,553 million cubic feet. See Table 4.

* There were 6,099 productive gas wells at the end of 1982. See Table 5.

* Thirty-one of the fifty-six gas utilities had total revenues of more than $1 million in 1982. See Table 6.

* Columbia Gas Transmission Corporation supplied the most gas made available for Pennsylvania consumption. See Table 7.

1982 CENSUS OF PUBLIC UTILITIES IN PENNSYLVANIA

A. INTRODUCTION

This report presents 1982 data for gas utilities in Pennsylvania. Annual statistics reports are required from each public utility operating in Pennsylvania as provided in the Act of April 20, 1921, P.L. 193, as amended. Data were taken from reports filed with the Public Utility Commission for those utilities under their jurisdiction. Reports from utilities not under P.U.C. jurisdiction were collected by the Bureau of Statistics, Research and Planning, Department of Commerce. Statistics relate to calendar years.

B. DEFINITIONS AND EXPANATIONS

(1) Types of gas utilities included - All gas utilities which sell natural and/or manufactured gas to Pennsylvania consumers are included in this report.

(2) Gross investment - Aggregate of balance sheet values as of December 31, 1982, for plant property in service, equipment, distribution system in service (including land), and other fixed assets for which depreciation accounts are ordinarily maintained.

(3) Net income - Gross investment less depreciation reserve.

(4) Capital expenditures - Actual or estimated value of construction put in place plus cost of equipment and machinery purchased.

(5) Number of employees - Average number of employees who received pay for any part of the pay period ending nearest the 15th of March, May, August, and November. Employees include persons on paid vacation, but exclude members of the armed forces and pensioners carried on the utility's active rolls. Corporate officers are included, while proprietors and partners of unincorporated utilities and contract employees are excluded.

(6) Wages and salaries - Gross earnings during the reported year, prior to such deductions as employees' social security contributions, withholding taxes, group insurance, and union dues. Included are commissions, dismissal pay, all bonuses, vacation and sick leave pay, and the value of compensation in kind.

1982 STATISTICS FOR WATER UTILITIES IN PENNSYLVANIA

HIGHLIGHTS

The 1982 Report of Water Utilities indicates that:

* Net income for all water utilities rose from $55 million to $86 million, 57.6 percent, from 1981 to 1982. See Table 1.

* Private water was the most expensive at $2.37/thousand gallons, followed by municipal water at $1.16 and municipal authorities $1.06 for residential customers. See Table 2.

* More metered water was sold in 1981, 466,386 million gallons, than in 1982, 400,371 million gallons. See Table 3.

* Operating revenue was $96,957,000 in Allegheny County, $67,973,000 in Philadelphia County, and $59,257,000 in Delaware County. See Table 4.

* Municipal water authority investments totaled $1,194,565,000, including $192,140,000 in Allegheny County. Capital expenditures totaled $47,258,000, including $10,826,000 in Westmoreland County. See Table 5.

* Among private water utilities, Delaware County had the largest operating revenue, $34,279,000. See Table 6.

* Among municipal water systems, the City of Philadelphia was the leader with operating revenues of $67,973,000. See Table 7.

* Among municipal water authorities, Allegheny County had $34,350,000 in operating revenue. See Table 8.

* Private water utilities served 870,360 customers, including 218,163 in Delaware County. See Table 9.

* Municipal water utilities served 861,992 customers of which 504,747 were in Philadelphia. See Table 10.

* Municipal authority water utilities served 1,098,626 customers, including 179,230 in Allegheny County. See Table 11.

* There were 410 municipal water authorities serving over 1,100 municipalities. The investment, revenue, expense and customer data for each authority are presented in Table 12.

1982 CENSUS OF PUBLIC UTILITIES IN PENNSYLVANIA

A. INTRODUCTION

This report presents data collected in the 1982 Census of Public Utilities in Pennsylvania for water utilities including municipal water authorities. Annual statistical reports are required from each public utility operating in Pennsylvania as provided in The Act of April 20, 1921, P.L. 193, as amended. Statistics relate to the calendar years.

B. DEFINITIONS AND EXPLANATIONS

(1) A water utility is any enterprise, regardless of type of ownership, which is actively engaged in the transmission and sale of water to ultimate consumers.

The water utilities have been grouped according to ownership into private, municipal, and municipal authority enterprises. The private group includes water utilities having corporate, partnership or individual proprietor ownership. The municipal group consists of all city, borough, and township owned water utilities. The municipal authority group includes all water utilities owned and operated by Pennsylvania municipal authorities as incorporated under the Pennsylvania Municipal Authority Act.

(2) Gross investment - The recorded, undepreciated, book value of water plant and property (including land) in service as of December 31, 1982.

(3) Other operating revenue - Includes discounts, forfeited penalties, installation charges, service charges, sales of meters, and other operating revenue.

(4) Non-operating revenue - Includes dividend interest received, rental receipts, and other non-operating revenue.

(5) Non-operating expenses - Includes interest on bonds and other debt, bond retirement and all other non-operating expenses.

(6) Number of employees - Average number of employees who received pay for any part of the pay period ending nearest the 15th of March, May, August, and November. Employees include all persons on paid vacations, sick leave and holidays, but exclude members of the armed forces and pensioners carried on the utility's active rolls. Corporate officers are included, while proprietors and partners of unincorporated utilities and contract employees are excluded.

(7) Wages and salaries - Gross earnings during the reported year, prior to such deductions as employees' Social Security contributions, withholding taxes, group insurance, and union dues. Included are commissions, dismissal pay, all bonuses, vacation and sick leave pay, and the value of compensation in kind.

C. OTHER SOURCES OF WATER STATISTICS

The Bureau of Local Government Services, Municipal Statistics Division, in the Department of Community Affairs, Commonwealth of Pennsylvania compiles statistics on receipts and expenditures for municipal water utilities in the State.

1/ Private utilities pay all taxes while municipal and municipal authority utilities pay only social security taxes. Also, rates for private utilities are regulated by the Pennsylvania Public Utility Commission (PUC) while rates for other water utilities are set by the political process except for water provided beyond the geographic limits of a municipality. Rates for such areas are set by the PUC.

2/ Commercial, public and industrial.
